THE ISSUE AT STAKE

Over the past months, the Migrants in Countries in Crisis (MICIC) Initiative has been regularly referenced as a centrepiece in the process to adopt the Global Compacts and inform efforts to clarify responsibilities towards migrants in vulnerable situations.

The side event aims to take stock of lessons learnt by the MICIC Initiative. This mini-multilateral process has shown its value to efficiently fill protection gaps at both policy and practical levels.

State-led side event under the auspices of the Governments of Mexico and the Philippines

Funded by the EU and organised by ICMPD
